Present is philosophically for everyday living and is practical. It's about your words, actions and deeds being grounded L.O.V.E. and healthy reciprocation; focusing on Keep(ing) L.O.V.E. Present in the self, home, community, school, institutions at work and in the marketplace.

KEEPING L.O.V.E. PRESENT Changes the World

Keep L.O.V.E. Present is not “clinical” and does not require clinical language. Everyone can give and receive L.O.V.E. Our whole-istic approach to addressing the “human factor,” by creating venues for individuals and villages to access healthier lifestyles as a continuum, not as a intervention, allowing them to see themselves as active participants and recipients of L.O.V.E. We believe L.O.V.E. is the spiritual principal that holds things together and elevates life. Keep(ing) L.O.V.E. Present is easy to talk about because it is easy to believe and receive. Keep(ing) L.O.V.E. Present is a choice and something everyone can do. There is nothing mystical about our approach because as a “whole-istic” practice, Keep L.O.V.E. Present gives positive and immediate results... it is the door to healthier intergenerational relationships and the access to greater L.O.V.E.. L.O.V.E. is the income and the outcome of Keep L.O.V.E. Present...L.O.V.E. is given and L.O.V.E. is received.

Keep L.O.V.E. Present provides you with a satisfying and productive guide that allows you to become the light in your life as well as a beam in the lives of your family, village and the universe. It easily rivals the energy of “The Purpose Driven Life” and is as redundant as the cliché “just do it” or “I’m loving it”. In addition, it disappears “Stop the Violence.” L.O.V.E. is everywhere and can be applied to all things...most importantly...it is universally understood and free for the giving and taking!
